

Nov. 10, 1870

Dear Sir, Nov 10 70

Brother Pike that man
at Chathamuga ~~ten~~ that I sent
\$1500.- to buy land for freedmen.
I have forgotten his name you
wrote me was an honest & reliable
man he did not buy cheap land
for freedmen as I requested him
If you know he can be trusted
you may write him if he
has collected any money from freed-
men for that land he has sold
them he may give some of it to
those freedmen who are in want
of the necessaries of life I do not
^{mean} all the poor but ^{that} them, need clothes
& victuals to keep them comfortable
I cannot get them there that can
help themselves and are too lazy
let them go tell him to write me
how much land he has sold to freedmen

Dear Sir

If you will send me Sarah P. Phillips. three copies of your American Missionary Magazine, of Nov. and Dec I will try to place them where I hope they will prove to be like "leaven hid in three measures of meal," by the blessing of G^d, accompanying them.

Without His blessing the effort will be in vain.

I am truly thankful your Society have taken the the cause of the poor, despised, Indian in hand. May the Lord bless the effort, in giving all the Wisdom, Prudence, Sound Judgment, With true Courage, and Zeal, in the work.

are large, & my income

July 6th 1871

My dear Friend,
Received your letter on the
4th that you forwarded - hope you
will do me similar favors as you
have opportunity. My journey home
was slightly prolonged - Every body
seemed like minded with myself in
the desire to be home before the Sab-
bath - and we loaded the cars so heav-
ily that the engine proved wholly
unequal to the occasion, and drew
us into New Haven an hour behind
time - At New London, we failed
entirely to make connection, and had
to wait for the next train - refresh-
ments two small rolls and a little
candy - (revised edition of Nashville

fare, the candy appendix not being
in the original) - We reached Prov.
after ten o'clock at night -
Questioned what to do with myself
at that hour Saturday - and then,
as there were a few who wished to go
to Bristol, we decided to take pri-
vate conveyance - I reached Mr.
Kinnicutt's at twelve, spent what
was left of the night there - and
walked home to breakfast Sunday
morning - my trunks came Monday
afternoon -

A letter from Father last night
reports mother better - but cannot
tell when he will be home - certain-
ly not this week - Seems to be hav-
ing a pleasant time, and talks of
going to the White Mountains -

You cannot conceive what a de-
light it is for me to sit down to
a well laid table. Everything
seemed as clean to me when I

reached home as they did dirty
when I first saw the inside of Fisk.
There can be no excuse for the want of
cleanliness I saw last year -
When I left Nashville for the South
I took my ticket through to Macon -
but when the route was changed -
I let Mr. Chase take the ticket from
Atlanta to Macon to use for the
Association - Of course the four or five
dollars went into my bill, though
really it hardly belonged there -
However, as I have settled my bill,
and the Association has paid me,
directly, rather than through Mr.
Chase, I suppose it is all right -
Have not yet prevailed with my
sister to go South -

Somewhat behind the times in
shopping as in other matters, am
going to the City today to do some
Spring shopping -

We shall hope to see you here this

summer -

Did I ask you to tell Mr. Stickel
the way to Barrington? I hope you
will do so if I did not ask you,
and also Mrs. Meade if you see
her in New York - Mr. Bennett
and Mr. Smith, too, you can head
the same way - It will be a great
pleasure to me to see the nice teach-
ers that I met South, and pay them
in my own home for the attention they
showed me far away - and I hope all the
capital missionaries you will head this
way -

Your letter has just come. I do not know
what to make of Mr. Dougherty's not re-
ceiving letters - have sent him three -
Mr. Brown, the pastor of that Church, was
at "Fiske", and knew that they were support-
ing a "Missionary" at Fiske or Atlanta, but
did not seem to have a very definite idea
of the affair - I felt then that probably
letters had not been received - Will you
please give me his address again -

July 20th 1871.

Rev. G. D. Pike,

My dear friend —

"By reason of the sewing" so necessary to be done, and for the sake of knowing what to say I have delayed writing you for a few days —

If Lake Pontchartrain keeps to its own bed, and there is no prospect of inundation or yellow fever or famine, think you may book me for New Orleans — Should the rivers overflow their banks, I might prefer to cast my bread upon other waters — And should the yellow fever set in, should prefer that the Frost, the only sure doctor in that disease, should be before me — However, I'm not spe-

cially anxious about either of these things - What is to be the plan about boarding the next year? Will there be a "Home", and is it to be near the University?

Mr. Healy pointed out to me the building you are hoping to purchase for the commencement of a boarding department - and also the elegant house with the fine garden that the A. M. A. ~~are~~ coveting for a Theological Seminary. What is the prospect regarding the purchase of these?

Had a letter from Miss Gilbert two or three ^{days} ~~weeks~~ ago, and have just written her what I know about New Orleans - Am so glad she hopes to be able to go South another year.

I have been writing S. S. letters all day today and shall continue with variations tomorrow - If I get a part of my missionary letter in here, about the one arined re-

cruiting officer ~~for~~ the Sunday School
they had at Atlanta, who, not able to
sit up, used to lie on the straw in the
corner of his room, and call ^{to} this little
children through the cracks in his hut,
and then when he had got them in,
induce them to go to S.S. - you
need not wonder - I am writing
somewhat by steam -

And the thoughts that I've been throw-
ing together "respecting the closing
exercises at "Fiske" have made me
feel really proud of an Institution,
that established in the face of opposi-
tion only so few years ago, can now
admit four to the Freshman class of
the regular college course - all of
whom have received the whole of their
preparatory education at this school -
Sarah was back in Brooklyn last
Sat. morning - A pencil note this
morning from mother told us that
^{she} should not be able to be home for

two or three weeks yet - could only
sit up about twenty minutes at a
time -

We are not planning much at home
this summer - I hope to go to Boston
as soon as it bids fair to be com-
fortably cool, probably the first of
September -

Wishing you much success,

Yours, hastily,

Nellie M. Horton -

Dear Sir -

Mr. Adams writes me a very pleasant letter - saying he will read my last missionary letter to the S. S. next Sunday - at the time when there are the most people out - Mr. Strieby is going there in Sept. and by the combined forces, he hopes to raise enough money to entitle him to letters another year.

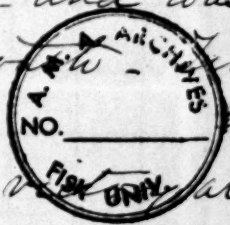

Rev. Mr. Wood writes that he has not been connected with the Ellington church for some time - will read my letter as he has others, and do all he can to get up interest in the work - but thinks that the letters would do more good, if written to the pastor or Supt. - giving me the names of both -

Mr. Griffin wrote me in July that his church would take their annual collection that month, and he should do what he could by precept and example to make it a good round sum - hope it has reached you ere this. What a nice correspondent Mr. G. is. Think he must make a letter tell in Sunday School - Do you know I think it makes a vast deal of difference in the interest - who reads letters as well as who writes them. Know that some men would make three or four times as much out of my letters as other men - A man who knows how to "put things", can make any letter tell, if there is the least bit of anything in it to tell -

Miss Gilbert writes that Mr. Cravath wrote to her about going to Beaufort. What does it mean? I thought she was to go with me - and don't think you would wish me to go to B. even

should I aspire to another winter on the sandy desert. I've already written the "Annals of the poor" in that region.

Why Mr. Strong and Miss M. so disappointed the hopes of their friends in a mystery - When Mr. S. was in Selma before the close of the term, as I learn from one of the teachers there, he bought the wedding ring - made no secret of the engagement - and was only waiting for Mr. Crant to - time will solve the riddle -

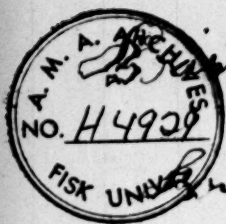

Wasn't the victory at Atlanta just glorious? Am not sorry that the victory came to Atlanta rather than Fiske - she deserves it - let her wear her laurels. If I mistake not, substance rather than show is Atlanta's motto -

Did I ever tell you that in the Fiske Cat. for last year, there were five names down in the Senior Preparatory Class - but on inquiry I found that not one of the five had ever studied a single study

put down as belonging to the Sen. Prep.
and would be certainly all the year on the
Jun. Prep. studies - Being as charitable as
possible it seemed to me a little stretch
of the truth - If I hear there is a class in
a certain study at any school, when I go
there, I like to find at least one Cuffey
or Sanbo that has at some time seen the
text book or at least heard of the study -
It is said that the more one writes, the
more there is to write, and that seems to
prove true in my notes of the colored peo-
ple - There never has been a month that I
really wanted to say more than this - Had I
written all to each church that I noted
down for this month, my letters would have
been full of them twelve or fourteen pages.
The pleasant prayer meeting at Marion
and little incidents ~~came~~ in connection
with that church came up so freshly that
I could have written a long letter about
it - One of the most encouraging sights I saw
South, was the weekly prayer meeting of the
Marion church - I wish you could have
listened to the words of sadness and of joy
that I heard that evening - There are many
things I want to say and many questions
I want to ask - but that you may not say
"will she ever have done?" I pause
Yours, Nellie M. Horton -

Dear Friend,

I wish you would send me, as soon as convenient, a check for forty seven dollars - forty five on salary from the first of July to the first of Oct. and two dollars for stamps and stationery -

It is getting so late now, that I've thought perhaps I'd not better go South, wherever I go, till after the Annual Meeting in Oct. I could take that on the way, and go directly on from there -

Coming as it does at

Hartford, I might see several
to whom I've been writing -

From reports of yellow fever,
I judge that it would hard-
ly be desirable to go to some
places for two or three weeks
~~at least~~ yet.

I should like to get a little
enthusiasm myself from the
Meetings ~~now~~ -

In case I should go ^{to Hartford}, is
there any necessity for my
writing long beforehand, and
to whom ought I to write?

We have seen, we think
some notice about this, but
cannot now find it -

My father is going this week
to the Meeting of the Board,
and will also go to Hartford -

We commenced a collection
for the A. M. A. yesterday,
and last evening the month.

ly Concert turned almost entirely to the subject of the colored work -

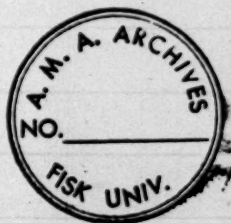

If the Indians have spared you, please let me hear from you soon -

With kind regards,

Yours

This letter is too full of blunders to send, but it is the first of the month, and I'm in haste about my missionary letters - have five now ready to send - so please excuse -

Rev. G. D. Pike

Dear Friend,

It was pleasant to see your hand writing again, and know that you survived a visit to the Indians - What you say of ^{New Orleans} ~~Atlanta~~ is what I have felt all summer, and what has dampened my enthusiasm much - had feared, that to make my letters satisfactory, I should have to write concerning things that are not - that I should have to write in faith rather than by sight. That there are unseen realities, I've no manner of doubt, but just at present, to my thinking, one boy stumbling through "Musa", is worth fifty in my brain reading Cicero - I can imagine as wonderful absurdities as any one, but cannot write out my imagination.

trius for truth - Yet I do not wish people to think that I lack enthusiasm, because I cannot say that a person just commencing arithmetic is thoroughly acquainted with the principles of mathematics.

Substantial schools, with hard drill and sensible instruction is what the South seems to me to need just now.

The love of show grows fast enough among the colored people without special cultivation - The majority of colored girls, whose mothers are over the wash tub all the week, had better learn to read and write than to play the piano, and be taught to clothe themselves in proper apparel than to deck themselves in the royal robes of ancient Persians -

If Mr. Ashley goes to N. O. he will do much to modify matters - still I do not look very favorably towards the Gulf - and think

Some other place might be better
for me - My health is better on the
coast than in the interior, and I
want to ask you if there would be
any chance for me at Savannah -
I've had a lingering longing for a
year or two for that place - and
have thought perhaps now it might
be arranged for me to go there -
You know better than I about this,
and whether it would be a desirable
place for me - At Atlanta, the com-
pany would be delightful - but could
I endure the table? It would not
be as bad as Nashville, but my expe-
rience at N. rather makes me shrink.
I've no desire to be fastidious, and
do not think I am - If it should
be thought on the whole best for
me to go to Atlanta, I should
probably say nothing against it -
still it seems to me that for
some reasons. I should prefer

Savannah —

Father is going to Hartford with me - If desirable, I can take my trunks along, and be all ready to start from there -

Nancy has just come for this letter to take to the office - It has been written in great haste and with great freedom - being a personal letter rather than public -

Please say to Mr. Cravath that the check came all right and that I am much obliged -

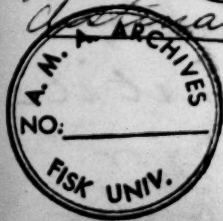

Don't think because I write so freely to you that everything goes into my missionary letters -

I omit a good deal - for there is much that doesn't bear telling -

Please write me when you find it convenient, what the probabilities are about my destination - or the possibilities

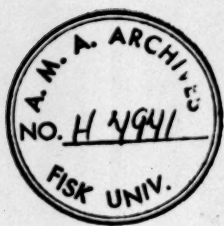

Kindly yours

Vellie M. Horton -

Rev. E. D. Pike,

Dear Friend,

A letter that Miss Gilbert wrote for you reached me Monday morning. Saying that you would write me soon, but that Mr. Healy was hardly willing to release me from New Orleans - I have been waiting a few days, hoping to have more favorable advices - for I cannot get up the least bit of enthusiasm about going to N. O. under the circumstances - in fact, there is a sort of dread that comes over me whenever I think of it - My instinct seems against it, and I'm not sure but my reason is, too - There are plenty of people to take my place in N. O. and Mr. H. can release me just as

well as Miss G.

Why can I not go to Savannah?
Isn't there anything for me to do there?
Going there, I might stop a couple
of days in Wilmington, and get
enough about our old friends for one
month's letters - People would be glad
to hear a wee bit of them after a
year's silence -

Is Mr. Ashley surely going to N. O.?
What became of Gen. Howard in the
Chicago fire? Is the A. M. A. all
burnt up in that region?

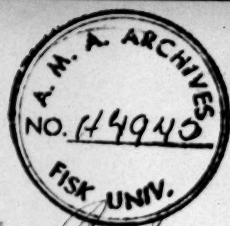

In haste,

Yours,

Nellie M. Horton -

Dear Dr. Cravette. I was obliged to go to Nashville to make some arrangements for Laura's comfort - during the remainder of my absence - I was there 4 days. I found that Houston had put in a petition to have his land restored to him - on the plea that he had only received pay for the damage to his property - and not for the value of it - and that he had been compelled to do it, by necessity, in order to get the damages - Maj. Hopkins is trying to show to the Committee that he was paid more than the property was ever worth - (\$37,500.00) Hopkins & Prosser were hopeful that the bill would pass. It is thought that suitable land cannot be purchased near the Fort site. It is all the land there is laid off with streets & alleys - and is held at 25¢ & 30¢ per foot. Maj. Hopkins thinks the Judge Furner property (Colored Fair ground) the better location as twenty acres of good land can be obtained at reasonable rates - and he argues that the location has more advantages -

We probably have something over 18000 \$ clear.
our plans now will bring us to Syracuse the

Rev. E. M. Cravath,

59 Reade Street,

Dear Sir:

This evening
I have taken the liberty by telegraph
to request of you a note recommending
me for some such place as the
principalship of a graded School
so far as you know of my qualifications
or fitness for such a position -

I hope to be in Danbury
tomorrow night, and may
then talk over some school
arrangement. There seems
but a small chance of this
movement bearing fruit, but
I am in the market for almost
any kind of work from
blackening boots to building the

East River bridge -

By the way, have you seen the "minority report" of our old friend W. L. Clark? You may remember he was on the Committee to investigate the alleged frauds upon the State Road in Georgia. He shows that most of the stolen money went into the hands of Southern Democrats and that but comparatively little was taken by Northern Republicans.

Yrs. truly

Perhaps I ought to say, that one of our
largest contributors - and old business man
and now treas. of an incorp. manufg, Mr.
Joseph Wood, was so much exercised
about the large percentage of running ex-
penses of the Asso. that he was hardly
persuaded to make his usual subscrip-
tion. I earnestly hope another year the mat-
ter will be made very plain, so as to avoid
misapprehension, and if there is a chance to
make the running expenses less without det-
riment, it will be done, as this is a subject
about which business men, especially, are
exceedingly sensitive, and I suppose business
men are mainly the heavy givers.

dozen trunks with much
valuable clothing in them

about all our glass-ware
brockery-ware, Tin-ware
and Iron-ware; Knives and
Forks and some Silver-ware;
with most of what was in the
cellar; all, all, went down
before the fall Destroyer, in
that great ^{plague} when it almost
seemed as if our Country
was doomed to fall before the
fiery element -

I was very fortunate in
having a small insurance
on the house amounting
to six hundred dollars -

My Friends and Neighbors
have been very very good
to me; and I have been ena-
bled to get up a pleasant
convenient house - But it
has left me somewhat in
debt, which would be but

a trifle if I was young
and had good health; but I
have seen the frosts of
over six winters, my
health is poor, I was very
sick with the Pleurisy
last winter and have a
bad cough now -

I have had quite a difficulty
to bring up on a small

farm and far from market
but still I ~~do~~ have got
along and had some to give
to the poor and needy -

So you will see why I
have not forwarded you
any money for two years
past - But I hope to be
enabled to forward you
a mite for the future -

I see that you are very
much in need of money

in these panic times
and have tried to collect
some for you -

I have not been so fortunate
in collecting of some of
my neighbors as I used to
be but will send you
seven dollars -

I see that with the help of
the Lord you are still pushing
the good work along and
he will still continue to help
you - But I must close
and subscribe myself
yours ever.

Dear Sir,

Enclosed please find
two letters, one from S. C. Armstrong,
in answer to one I addressed him
the 14th of Feby last, and one
from Mrs Holden a lady of
large wealth and influence, and
who I understand has given
very liberally to Hampton College.
I have a great desire to go
south among the freedman, as
a teacher of the Common English
branches, book keeping &c.

I am not particular as to locality, but heard there was a scarcity of teachers in N. Carolina. and it was upon that subject I wrote Mr Armstrong - I have had some experience, having been connected with the Freedmans Bureau, in Vicksburg soon after the war, but had to labor under great difficulties, as the Citizens of that State, did not at that time, recognize the right of educating the Colored people - Have also travelled extensively through the South since, and have a very good idea of what would be required.

I do not expect, nor do I ask for a large salary, only what would give me a living - my sole object is to do what good I can, for those who have been

so long in bondage. I have
delayed thus long in writing
you, as my business affairs
have made it impossible for me
to enter into any negotiations, should
I obtain a chance. Am at liberty
now, and should feel under
many obligations should you
give this your early attention.

Am 30 years of age, and ^{can} give
you undoubted reference as to
character, ability, &c.

Trusting this may meet with
your approval. I am

My Dear Bro Cavanth -

I find Bro Ladd "has a mind to work" but the boys do not seem to believe in him yet - I have put him on the Lym. Court. and shall watch him - I find Boston gave Saturday about \$950. and Worcester last night \$450. It was terrible traveling - Tonight will have about \$550. The prospects for the week are fair - say \$2500 gross - The book is to be ready Thursday night - I shall advise about the Courts for last of Feb and Apr 1874 - and the dates will be fixed soon - In deciding about the Snipey going to Nashville

the

feelings of the people who
work up the Concerts. and
are anxious to make some
money might well be consulted.
The Courage of such men cannot
be kept up unless they see that
the money they ~~try~~ gather
is wisely expended - I am sure
I am right about this - No
man but a fool will work
with much zest long for a
cause unless he sees that his
efforts are of avail for good.
He might work for wages -
but this business requires men
who work for higher motives -
It will take \$1500 for
this business to give up Concerts
for first week in May - If the
Commencement of
F. H. was to take place at that
time it might appear a

sensible thing & dedicate the
Hall then - but without the
apology of a finished Hall
or a Commencement season
I should be afraid that
nine men would regard us
as impudent if they knew the
facts - It is not a matter
about which I have much
feeling - Doubtless this business
has its destiny, and I can say
me all of us hope it may not
prove to be a destiny of blunder.
I have a cold and get tired
but see much that is hopeful
to encourage -

Dear Sir:—

If you remember, a young man named Madison Smith, on graduating from Phillips Academy Andover Mass. two years ago was recommended to you by Rev. W. F. Bacon Lacrosse N. H. and others, for a position south as a teacher.

I am such a person, you wrote me that the recommendations were satisfactory, and you appointed ^{me} to a school in North Carolina; but after the appointment I decided to enter directly upon my college

course I entered Amherst College
that fall and have been per-
suing my studies steadily
ever since, until last spring
when my exertions to get money
together with my close appli-
cation to study so impaired
my health that I was obliged
to leave college. As my health
has greatly improved I have de-
cided ^{now} to enter college next
fall though I might be able
to do so, ~~as~~ far as health
is concerned. but get a position
South if I can as a teacher
so that I may devote the remain-
der of my College course entire-
ly to my studies, and also get
a little experience in working
among my people, to whom
I hope to devote my entire
life's work.

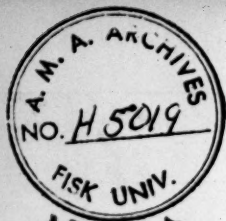

Therefore sir, I wish you would

make the best appointment
you can for me, and ad-
vise me in your reply as
to what I shall do about rec-
ommendation; whether to renew
those presented and approved
two years ago, or to get new
ones, from my college pro-

Rev. C. I. Woodward,

Dear Sir,

I take the liberty of introducing to your notice, our young friend James C. Robbins. He is desirous of obtaining a situation as teacher in one of the schools of the American Miss. Association. The best credentials can be given for his competency as a teacher, & for his unexceptionable character. He spent the last winter in Charleston S. C. & had charge of one of the district schools in the vicinity of the city. As far as I can learn, he gave good satisfaction to the Commissioners - but would

much prefer to be in the
service of the A. M. A.

If there is a vacant position
where he might make himself
useful, we should be much
glatified to have him connected
with so good a cause.

September 6, 1875

Providence R. I.
Sept 6th 1875;

Rev. M. E. Streby.

Dear Sir.

You ask what college studies we expect to teach at Emerson Institute next year. We have no scholars now which are taking classical studies except Latin. My advanced class I expect to have study next year Virgil, Geometry, Algebra, Geology, Physiology, and Comprehensive History. The members of this class are teaching through the summer near Mobile and in the fall bring many

of their scholars in to the
Institute. They have been
studying such a short
time and have so little
means of improvement out-
side of school that it
seems necessary to take
them farther in their work
than they have yet been
that they may receive the
influence of the school
longer, have their minds
better trained and their
character more fixed.
They are not simply to
be primary school teachers
but the leading minds
and the positive influence
in the places where they
teach.

I do not meet the same
opinions you speak of
in the north. I have

conversed with many east
and west about the work
in the south. My observation
is that the more intelligent
Ministers, teachers, and
laymen think more
highly of our school
work in the Gospel way
in which we strive to
conduct it, than of the
strictly church work.
I believe your receipts would
show the same should the
work be changed in the
south.

Dear Sir

I intended to have sent
you a small remittance
some time ago but
forgot to do it—

It is but little that
I can send these some
times which I have seen
ever since I lost my
house by fire

I would like to send you
more must try to be
content with a little
There is need enough
of funds to carry on
the good work all
round the world

but especially among
the freed men of the South
who seem to be having
rather a hard time of it.

But we must live and
pray and work and hope
and trust; and look forward to
a brighter future for the
colored race; when he shall
have justice done him;
and have an opportunity
to rise from his downiness
and degradation; and
be respected by all.

Enclosed you will
find six dollars

even this is a Christmas gift to me, which
I gladly send you for your American

not. I do, thank you, And God will bless,
you for considering those 3 poor down
trodden, and despised classes of people
He who came to save the poor lost sinners
will bless your labours.

The first piece in this last No. for Jan. 1876
expresses my feelings fully. What Nation,
is there whose sins, are so glaring, as those
of ours. Unless Rascality in business, is
stopped, And the Churches lay aside Vanity fair
extravagance in selfagrandizement in hats and
dresses, and cast their money into the Treasury
of the Lord. What can we expect but the explosion
of God's anger. Yours with best regards.

Respected Sir

I am a young man
24 years of age, who intended to enter
the ministry; and graduated from
Williams College ⁽²⁴⁾ with that expectation.
During the last part of my course,
I was assisted by the Educational
Society. On account of poor health
I have not yet entered upon a
Theological course; but have not
yet wholly abandoned the idea.

Still, I feel that I am very poorly
fitted to preach; among other reasons,
have lost my voice through sickness.

My talent seems to be more in the
line of teaching, and influencing
others by daily living and working
with them; and I should like, if
possible to do that way.

but, I trust, am willing to do
or be simply what the Master
wills. I once planned great things
for Him, but am now willing
to do my little in His name

On account of my health, I
desire to spend the winter at
the South. Is there any position
which I can fill, which will give
me my daily bread while trying
to advance the interests of the Kingdom?
Let it be whatever it may, provided
I am able to fill it; intellectual or
moral labor; wherever I can be useful
Only the responsibility must not be
so great as to injure my health,
instead of strengthening me.

In regard to compensation
a small sum would satisfy me
~~and~~ must care to grow rich out of
the Lord's work; still, I desire
enough for the necessities of life

Not finding anything else
to do for the summer. I am at
present attending to the bathing
in this place. My engagement will
expire in September. After a few
days spent in Philadelphia, I shall
~~be~~ prepared to enter upon other
work.

This kind of work in accordance
with the advice of Pres. Chadbourne
and others who know me, and to
whom I can refer.

I should be pleased to
hear from you soon in regard
to this. Whether I engage with you
or not. I intend to labor for the Master
in some way or other.

Yours, respectfully

Dear ~~Miss Merck~~

Your letter of the 17th is just received. I forwarded, this morning, a testimonial from my pastor, who returned yesterday, and was only too glad to write it. How can I possibly get ready so soon! I am only just out of school, and, of course, with teachers sewing accumulates, which is generally left for vacation. I have not hurried it, not knowing if I would be qualified for the position offered me. Please give me till the week after, and I will certainly be ready. I can leave Prov. Monday eve. Nov. 27th for N. Y. allowing the remainder of the week to reach Memphis. Thank you for the suggestion about clothing. I shall have to fly to be ready.

To Sec. of C. M. C.

I was too
nervous on arriving at

as I had intended, so came

My expenses are greater for
the return trip, because of
the fare from N. Y. to my home

Dear Sir, -

Having learned,
through Miss Ora Angell,
that there are vacancies to
be filled this Fall, in
your School, at Longalor,
I beg leave to offer myself
as a candidate for one of
the positions.

I graduated at the
Rhode Island Normal School

in 1874, and have ever
since devoted myself to
the work of teaching.

For testimonials, I
would refer you to Hon.
J. B. Stockwell, State Com-
missioner, and Prof. J. C.
Guenough, Principal of the
Rhode Island Normal
School; both gentlemen of
Providence.

I am,

Respectfully yours,

Dear Miss Emerson:

Perhaps you do not know that I am anxiously waiting to hear what disposition, if any, is to be made of me, in the work of the A. M. A. I would like to know as soon as possible, so many things depend on it. Are you not glad of the cool summer we are having? We teachers can rest so much better. Do you not have a time of rest for yourself?

Yours in haste,
M. Merry.

Is there an opportunity
in Mobile for opening a se-

branches? Could I rent a
room properly furnished, on
reasonable terms? I do not wish
to purchase, but rent. I have
been a teacher for over 20 years.
I would have no objections to

Miss D. C. Emerson:

Dear Friend:

I am more sorry than I can tell you, because I am not to return to Memphis. The work was pleasant to me, though there were some things that were not according to my liking. Taking the year as a whole, it was a profitable one to me, it gave me experiences that were wholly new to me, and an interest in the people that I had never had before. There were some things to be regretted, and many more to be pleasantly remembered.

I acknowledge that when I entered the Miss. field that my interest

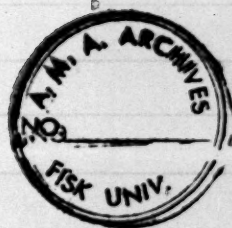

wasn't very strong. Missions always
have had a place in my heart,
and I have sometimes had a longing
to enter the work. In our own country
it did not seem like Miss. work, till
I entered into it myself. and no one
feels the need more than I do, of
a greater strength and reliance on God,
to fulfill all the obligations of life.
I always enter any new field of
labor with fear and trembling, as
I did when I went to Memphis. Any
new opening is always dreaded.
I would be glad to return South,
but I would hesitate long before
accepting the position you speak of
in N.C. I had charge of an inter-
mediate grade for three years, but
my children were young, between
seven and thirteen years of age.
I certainly would not like to take
charge of any department, an as-
sistant's place would suit me

better. Mathematics I never liked,
and never desire to teach.

What more can I say to assure
you that my interest in the A.M.A.
is greater than when I entered it,
and that a suitable position
would be gladly accepted by

Yours Friend,

May Messy.

Dear Miss Emerson;

Your letter came this morning while I was away in Boston. Returning tonight, I thought it too late even to send a telegram, there probably being no one at the office to receive it. Perhaps it may not be too late if you receive my letter on Monday morning.

I think I would like the situation in Montgomery all things considered. Going before the School Board is always disagreeable to me. But there are worse things than that in life to be endured. When does the school open, and how soon ought I to

start? It is a longer journey
than at Memphis, I suppose.
I understand, that, besides teaching
vocal music, I am to take
charge of an intermediate grade.
Am I right? And do you know
the number of pupils of that
grade? There are many other ques-
tions which I would like to ask,
but you may not be able to answer
them.

Yours in haste,

Newport Sep. 5 1850

My dear friend

There are two
Quarter Meetings (or Conferences)
of (Orthodox) Friends, besides
those of London, Dublin and
Canada viz New England,
New York, Philadelphia, Gal-
litz, North Carolina, Ohio
Indiana, Western, Iowa and
Kansas. Of these Philad
is the strongest in wealth and
culture; Indiana, in numbers
and religious activity. From
these two we expect to receive
Reports before long - All
of the two, are engaged (and or
have been) in work for the
Freedmen of the South -

We now have pleasure to enclose
herewith a Synopsis of Reports
from N. England, N York & Balt-
imore, Condensed as best we
could, from Accounts recorded
in their minutes, which you
will of course use and abridge
at your discretion - I expect
about you 2 or 3 more such
work as we find this compilation
rather slow work -

Please let me know whether
these Abstracts will suffice
for the requirements of both
your letters, say for past and
current operations -

Yrs Sincerely

Accl Kimber

Rev. Mr. Pike,

Dear Friend -

Mr. Cravath's good, kind, two paged letter awaited me on my arrival from the districts, - ^{to long} To tell the plain truth and admit "one branch of my weakmindedness; one special source of anxiety has been, the journey alone to Nashville -

Father is away - I have not seen him since Mr. C's letter and have hardly had time myself to "reflect".

If Mr. Cravath saw my letter, he must have been amused at my dread of western people - I did not mean to

imply that they are any less agreeable than eastern people. in fact, I think that those people (or many of them) who have lived all their lives near Boston Common, would be improved by a little infusion of western ideas and western energy. But when one is away from home, it is pleasant to be with those who are ~~often~~ from the same section, and know the same places and persons.

My intention now is to be in N. Y. early next Tuesday morning - if I am not there before ~~that~~ - going on with father Monday night. On some accounts would like to be in N. Y. Monday morning, but can't start Sunday night -

I am going to Providence to-
morrow - and could leave home
for N. Y. if necessary Friday
or Saturday - not before -

I want very much to see
you at the Rooms - am half
a mind to say I shall not
go on unless I do -

Lacy is still sick abed - I
have been both troubled and
busy of late -

If it is considered best
all round for me to go to
Nashville, shall have to go,
whether it is tough or not -
but hope to see you very soon.

With kind regards,

Yours,

Mellie M. Horton -

The cause of a benighted, the down-trodden and oppressed, still needs our prayers, our sympathies, our united action, and especially, our pecuniary aid.

We the undersigned do therefore feel it a privilege as well as a duty to aid that cause, in enlightening the heathen, in aiding the down-trodden, and the oppressed. We do therefore cheerfully give the sum affixed to our several names below for the support of the Meridi Mission in Western Africa

Brother Tappan, I line to you to let you know how we are getting along in these times of great excitement.

when the oppressor's rage was the more furious than ever, while many are unwilling to take a decided stand with the oppressed in this their hour of need - I attended meeting on fast day at the Presbyterian Church in our town and heard B. Beach - It appeared to me as if there was too much inclination to hold back; just as if he was afraid some one in his congregation would dislike it if he came out decidedly on the occasion. When he was thinking of the good old Levee who was present, (who formerly owned a goodly lot of Slaves, and is now quite wealthy) or not I do not know; but be that as it may he seemed to quote passage after passage of scripture but missed of quoting the right. If he had quoted from the 58 of Isaiah; I think it is; it appeared to me, that he would have come right to the point what an acceptable fast

to the Lord was. But there he was silent.
He spoke of Sabbath-breaking, intem-
perance and the like subjects all well
enough if it had been any common
past; but as far from the subject in
the present case as the east is from
the west. He seemed like one who had
surrounded a viper but was afraid to
give him any hard blows.

He prayed very fervently that there
might not be the first drop of fraternal
blood shed in the coming contest
between the North and South; all very
good in its right place; but it seemed
as if he had forgot that fraternal blood
had been shed for years before that
time; how forgot the blood of Lovejoy a
Dresser, and scores of others who have been
abused and ill-treated, lashed and driven
from their homes, even hung up by the
neck until life was extinct; whose
blood is now crying for vengeance

and ~~the~~ has already reached the ears of
the Lord of Sabaoth. This is no time
to give way to the grim monster
but war to ^{the} knife, and knife to the
hilt, should be our motto, in this great
moral conflict. Much is said about
the North troubling the South and
making disturbance. - And there will
be disturbance as long as Slavery
exists - Yes there is enough in the
North who fear their Brother, who
hate oppression, who are willing to help
their fellow-men in bondage; who will
carry on the warfare while life shall
last; knowing that the Lord is on
their ~~own~~ side and will sustain them,
and also raise up more to take their place
when they are called to leave the stage
of action. But I must close.

Yours in the cause of humanity
Edward W. Morris

The discipline and moral influences are such as are calculated to aid students in the prosecution of their studies, and establish those habits of self-control so essential to a true character, and without which, all education is of but little avail.

HOPKINTON ACADEMY

— AND —

TEACHERS' SEMINARY.

Board of Instruction.

HENRY C. COON, Principal, Professor of Analytical Chemistry, Natural and Mental Sciences, and Normal Department.

REV. JOHN P. HUNTING, A. M., Professor of Ancient Languages and English Literature.

JAIRUS M. STILLMAN, Professor of Instrumental and Vocal Music, Cultivation of the Voice, and Harmony.

MRS. L. ELVIRA COON, A. M., Preceptress, Teacher of French, German, Mathematics, and Ornamental Branches.

Courses of Instruction.

The different branches of Science and Literature are arranged into four classes, namely, Normal and English, Ladies', Classical and Scientific.

1. The Normal and English Course is designed to thoroughly qualify those intending to teach in our common schools, and for influential members of society. Special instruction in the Theory and Practice of Teaching is given in the Fall and Winter Terms. Certificates of advancement given to those wishing to teach.

2. The Ladies' Course is designed to give that thorough discipline and refined taste which the present age demands.

3. The Scientific Course is designed for those desiring a thorough education, with reference to future scientific pursuits.

4. The Classical Course prepares those completing it for an advanced standing in any of our Colleges.

No pains will be spared to make thorough students in each Department, and those who have finished either of the above Courses, and maintained a good moral character, will receive the Diploma of the Institution.

Excellent facilities are given to those wishing to obtain a thorough business education.

The Musical Department affords superior advantages. Mr. Stillman has availed himself of the best instruction in the country, including lessons in Bassini's method of Vocal Culture under its celebrated author, whose system he teaches with eminent success.

There are two efficient Literary Societies connected with the School, the "Parthenia" for the Ladies, and the "Washington Lyceum" for the Gentlemen.

The Natural Sciences are illustrated by apparatus, and a large collection of Minerals, Fossils, &c., to which additions are being constantly made. There is a commodious Boarding Hall connected with the Academy, under the immediate charge of the Principal.
